I DUOBLADE PETIT

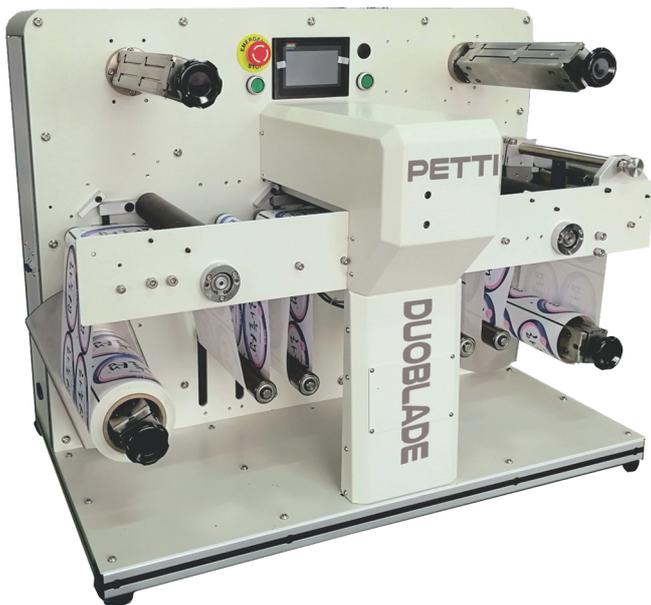

Desktop Digital Roll to Roll Label Cutter

DUOBLADE PETTI is the fastest table-top digital die cutter with maximum cutting speed of 8m/min. 0.2mm of high level cutting accuracy can be achieved by with full-servo motors. Round slitting cutter is adopted to guarantee smooth cutting process and longer durability. It supports rolls in 80-240mm width and cuts max. 230mm(W) x 300mm(H) size labels. When using split-cut function for long labels, cutting length can be much longer beyond the limitation of rotary or letterpress cutters.

DUOBLADE PETTI works with various table-top roll label printers like VIPCOLOR, OKI, EPSON, ANYTRON, PRIMERA, UNICOLOR and etc. Especially for VP series, it works in inline process by connection of data cable.

DUOBLADE PETTI is the best affordable choice for your table-top roll label printers to complete your job.

Product Information	
Name	DUOBLADE PETTI
Size	91*63*74cm
Color	White
Weight	120kg
Function	Roll to Roll label cutting
Features	Roll to Roll die-cutting machine for OKI MEMJET PRINTER
Max. Roll Diameter	290mm
Roll Width	80 - 240 mm
Max. Label Size	230*300mm

I Company Introduction

Company Name : VALLOY INC.

VALLOY INC. is an international marketing and publishing company for various products and solutions in visualization and digital printing market. Industrial market like printed electronics or bio-cell printing is another opportunity for digital production by inkjet technology. VALLOY means Value Alloyers, aiming value of synergy in different people and technologies in digital printing industry
