I WHB Gounbal Foot Cream

Exceptional Moisturizing and soft Exfoliation Foot Cream

WHB Gounbal brings a deep softening and moisturizing power to dry skin with the excellent moisturizing effects and skin penetration ability of emu oil. The long-lasting moisturizing ingredients help make extremely dry feet hydrated and soft. It is also easily absorbed when applied to the skin. Emu oil has an exceptional moisturizing effect and excellent skin permeability. With excellent moisture retention, it penetrates deep into the skin and helps soften rough, hardened skin.

This ingredient was extracted from the chest of an emu, a rare bird species related to an ostrich. It is composed of high unsaturated fatty acids and is a 100% natural oil.

It is recommended:

- For people who worry about dead skin, calluses, and stretch marks on their foot
- For people whose heels are cracked
- For people who have holes in their stockings
