## I HEATNESS EMS Belt

### Generate heat on their own

The HEATNESS belt of Cheonsan Co., Ltd. introduced its own heated EMS belt for the first time and has maintained its lead in self heating technology. It is differentiated from other companies' EMS massagers and belts, and is designed to generate heat on its own by wearing belts are designed to generate heat on their own. At the same time, the silver wire pad was made available in Cheonsan for a long time in order to compensate for the continuous consumption cost of gel pads, which can only be used with other companies' gel pads or belts. A separate auxiliary belt was made for use in any part of the wrist, ankle, arm, knee, or thigh.
