## I IPIDA Design Fashion Mask

### Fashion Mask with Various Patterns for the MZ Generation

The IPIDA Design Fashion Mask, which has been developed and manufactured by The Good Co., Ltd. since 2021, is made especially for the MZ generation and people who want unique masks instead of the normal black or white mask.

Unlike other fashion masks, IPIDA is a certified KF94 mask by the Ministry of Food and Drug Safety. The ink used for printing is also verified by the Ministry of Food and Drug Safety.

In addition to the colors and patterns we have designed, we also do customized masks with logos and phrases that suit our clients' preferences, which can be used to promote brands, build bonds, and as merchandise goods for celebrities and professional sports players.
