I CEBIEN Allin 5 Shower System

Shower system product consisted of various shower features

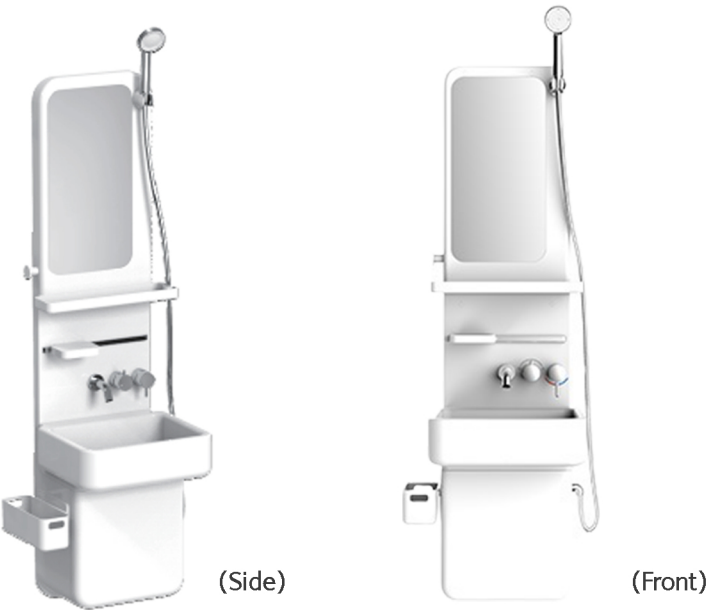

Allin 5 is a revolutionary solution of bathroom that dramatically changes the quality of urban lifestyle. It is designed to make life more livable amid rapid innovations and hurdles with the daily benefits it provides.

It is a shower system designed with various shower features, such as a hand shower, mirror, basin, storage, cabinet, and more. This bathroom innovation allows for efficient and maximized use of the existing area, reducing consumed space by two-thirds. As a result, it leaves extra space that can be used for other purposes.

- Benefits
- Extra space provided with the integrated function of an all-in-one shower system

Reduction on used-up time, space, materials, and labor cost possible with Allin-Bath

Minimized movement in bathrooms with efficient usage and maintenance
