+ Company Description

Devonine is a South Korean skincare brand founded in Seoul in 2015, with a drive to create plant-based skincare products from the heart of Asia's beauty mecca. Devonine Skincare utilizes nutrient dense ingredients as the basis for their skincare offerings. Spirulina Extract, Tiger Grass Extract and Deep Sea Algae are among the essential elements of the formulas created by their in-house biochemist. Devonine products are proudly EU certified and include many vegan certified offerings that are exported globally.
