I Portable USB Heating Pad

WITHMA Portable USB Heating Pad

Strengths of our product.

- Easy to use with only powerbank and USB adapter.
- 3-stage temperature control and 90-minute shut-off switch made the product safe for the elderly, children, and teenagers to use.
- Equal distribution and efficiency of heat throughout the surface of silicone without heating wires.
- No risk of short circuit due to the absence of nichrome wires.
- Temperature control and power switch are together which made it convenient to use.
- Light, soft and flexible.
- The whole surface generates heat.
- No risk of fire due to short circuit.
- Semi-permanent for usage since it is made of silicone.
- Silicone molding enables any shape to be implemented.
- Wide range of fabrication and utilization.

Product Info	
Size(mm)	300 x 300
Weight	75 g
Material	Waterproof coated DEWSPO
Color	Blue, Pink
HS Code	8516.80

I Company Introduction

Company Name : WithMa

Our company was selected as an export voucher support project in 2021 and was selected for KOSME branching project in 2021 and is currently carrying out the branching project in Washington, US, and Tokyo, Japan. Domestic and foreign heating products have a risk of fire or burns since they use heating wires, while our products do not contain any heating wires, so it was designed to generate heat throughout the silicone to provide safe products
