I AutoMed Series

AMBULATORY INFUSION PUMP(AutoMed 3200, 3300, 3400)

AutoMed series is ambulatory PCA infusion pump intended for general infusion use such as pain management after having surgeries. Even though it is PCA, it can be also intended for Chemo Therapy and Antibiotics. As they are electronic reusable PCA, the accuracy in flow rate is much higher than disposable infusion pump. You can find advantages you will take from our AutoMed series as listed below.

1) AutoMed 3200
The only disposable electronic PCA

2) AutoMed 3300
Reusable electronic PCA with its compartment for disposable set mounted on

3) AutoMed 3400
Reusable electronic PCA compatible with other

- Advantages:**
- Simple & easy operation
 - Small & lightweight
 - Compatible with AutoMed-dedicated reservoir set or other standard I.V bag
 - Programmable flow rate and bolus with lockout setting
 - Safety alarm function (Low battery, Occlusion, End of infusion, Malfunction)

1)	AutoMed 3200 Product Info
Flow rate	0~10ml/hr (1ml increment)
Pump size	100ml, 150ml, 275ml
Bolus Dose	0 ~ 5ml (1ml increment)
Lockout Time	0 ~ 60 min (9 steps)
2)	AutoMed 3300 Product Info
Flow rate	0.1~50ml/hr (0.1ml increment)
Pump size	100ml, 150ml, 275ml
Bolus Dose	0.1 ~ 5ml (1ml increment)
Lockout Time	0 ~ 60 min (9 steps)
3)	AutoMed 3400 Product Info
Flow rate	0.1~10ml/hr (0.1ml increment)
Pump size	100ml, 250ml
Bolus Dose	0.1 ~ 5ml (1ml increment)
Lockout Time	0 ~ 60 min (9 steps)

I Company Introduction

Company Name : Ace Medical Co., Ltd

Ace Medical, established in 1992, is a manufacturer of a wide range of medical devices, specializing in anesthesia field with over over 20 years in medical field. Our medical devices attain FDA/CE/ISO certificates, demonstrating the product quality meets global standard. Currently, we are providing our products in all continents via more than 40 distributors, cooperating with major international companies such as Teleflex.
