

Beauty

Aqua Blemish Cover Balm

Ointment texture protects skin

With pigment BB that restores the skin's natural tone:

Mung bean seed and soybean extracts reduce the redness of sensitive skin for a natural look.

Traditional beauty BB cream with an ointment texture that gently adheres to the skin:

The special ointment texture covers the skin with only a small amount, protects it from the external environment, and helps brighten the skin all day.

Clear tone BB cream with a large amount of moisturizing ingredients:

The beta-glucan and Sanguisorba officinalis root extract supply moisture, strengthen the skin's protective barrier, and keep it hydrated for long periods.

Recommended For

1. For those looking for a natural base makeup perfect for your skin
2. For those in need of protection against dry skin after dermatology or beauty treatments
