I SHINY PUMPKIN VEGAN LINE

FAU vegan recipe with honest & pure ingredients

EVE VEGAN, a vegan certification organization established by Vegan France Interpro, oversees the certification and management of vegan products such as cosmetics, food, textiles, and health supplements. The EVE VEGAN certificate is currently recognized throughout Europe and worldwide, including Korea.

We not only excluded all the harmful ingredients well known to consumers but also completed a “non additional ingredient test” on 24 harmful ingredient types so that people with sensitive skin can freely use our products.

Ingredients	Sweet Pumpkin Extract	Pumpkins are rich in nutrients such as beta-carotene (vitamin A), vitamin B, C, and E, minerals, and omega fatty acids that help boost skin activity, keep the skin healthy, and improve skin elasticity.
	Eternal P	These are patented proteins obtained from nature. In particular, the protein obtained from the plant ingredient “peas” has been peptized to increase skin penetration and aid skin nutrition and elasticity.
	Seven types of hyaluronic acid	It contains seven types of hyaluronic acid, a skin moisturizing substance, with ultralow to ultrahigh molecular weights.

Recommended	Those who want comfortable moisturizing products without irritation due to extreme sensitive skin. Those who want to use not sticky but fresh product. Those who look for good ingredient products. Those who has dehydrated and undernourished. Those who want vegan product.
