I RANGEMATE PRO

Revolutionary Multi Cooker for Microwave

Rangemate's patented INFRA-HEAT technology transforms microwave rays to "far infrared energy," allowing our patented ceramic-coated cookware to heat evenly for "FAST-FRESH" grilling, baking, and steaming, all without exposing food to actual microwaves

- Flavors and fragrances are protected with infrared ray
- Solved problems with electromagnetic waves cooking
- Boil with high-heat far infrared ray temperature on the bottom surface
- The handle is not heated up after cooking
- Durable. No color or smell of the ingredients remains after cooking
- Science proved qualities of Rangemate
