ECIS Food Container Station
Drimm Reusable Containers

The Greet's history and the list of its patents

- 2021.05 ○ Applied for patent for business model for reusable containers
 - 2021.07 ○ Applied for patent for reusable containers
 - 2021.08 ○ Applied for patent for collecting solutions, including automated trolleys for reusable containers
 - 2021.10 ○ Incorporated THE GREET
 - 2021.11 ○ Filed ECIS and The Greet trademarks
-
- 2022.01 ○ Launched in-house R&D unit
 - 2022.02 ○ Granted with Venture Certificate
 - 2022.03 ○ Filed drimm trademark
Registered design IPs for take-out containers and spoon case
 - 2022.04 ○ Launched washing site Flagship Washing Hub for containers
Filed patents for Reusable Container System and Operating Principles
Filed patents for Container Collecting Tool and Door System
 - 2022.05 ○ Developed collecting machine based on IoT and AI and rolled out its prototypes

Venture Certificate

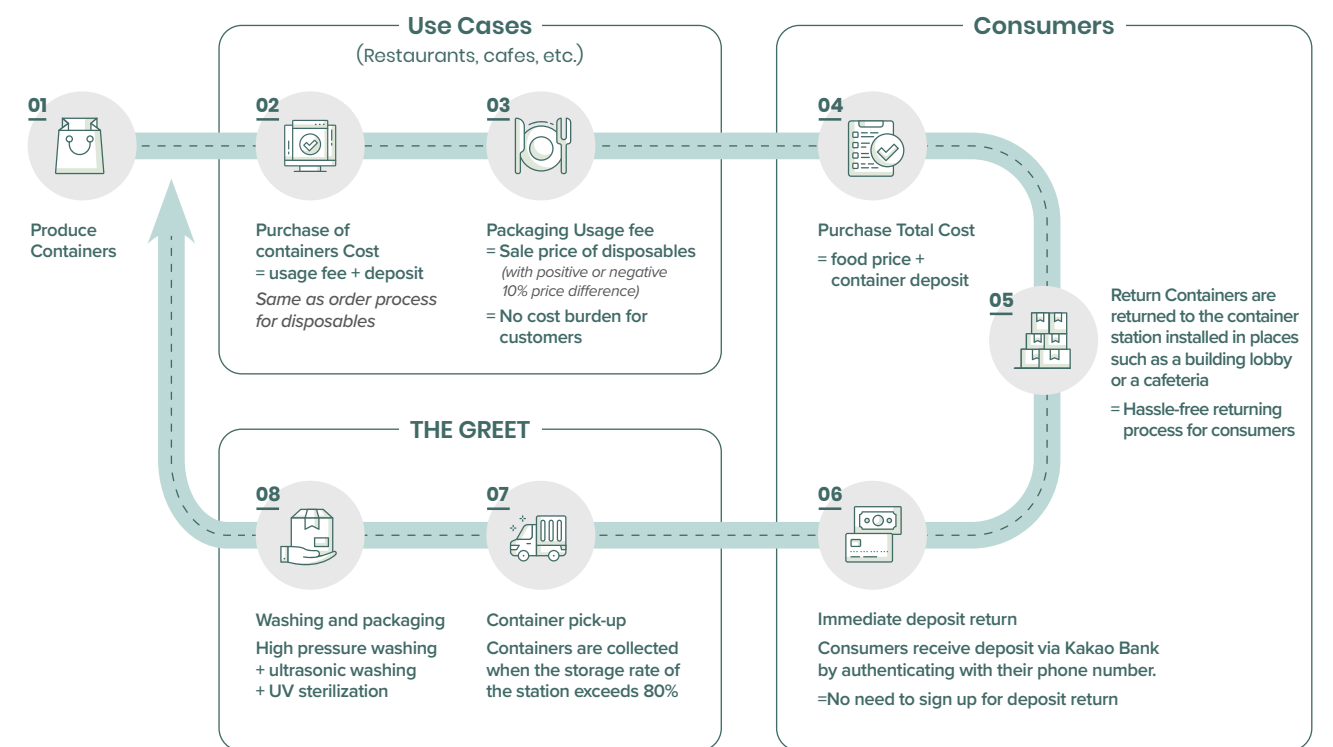

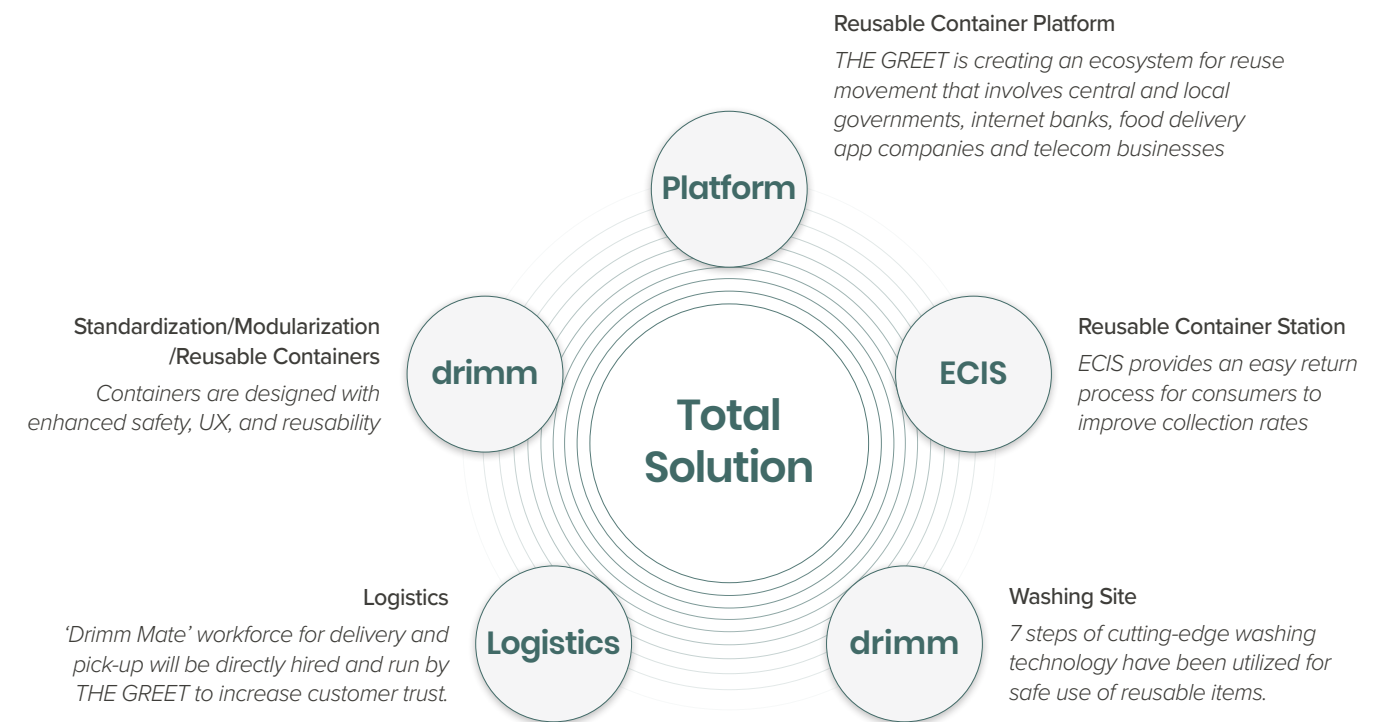

6 technology patents

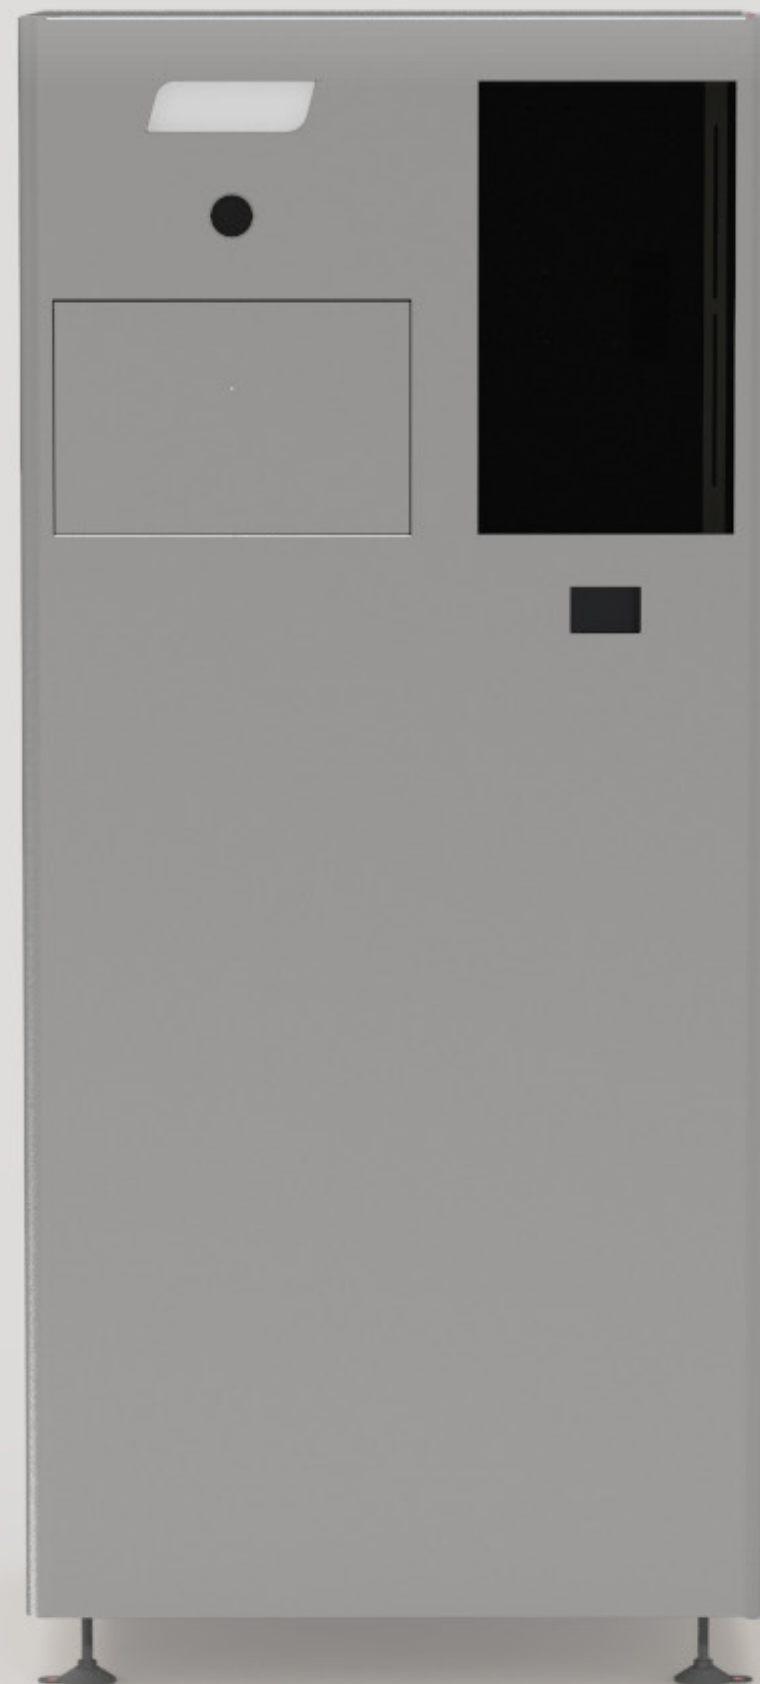

5 design patents

ECIS Total Solution

ECIS aims to reduce disposable plastic waste

ECIS

**The Greet offers the
easy and rewarding
experience for consumers.**

ECIS Device

Sleek design + High technical strength
+ Convenience for use + Sanitation

Businesses

No need for biz owners to wash containers or to handle the deposit returning process. With sleek design, the station can become an excellent interior item.

IoT tech enables online control and management

- Monitoring system for malfunction
- Remote control solutions to fix problems as well as onsite technical support
- Monitoring system for collection
- Container stations are retrieved when the storage rate exceeds 80%

Remote S/W updates based on IoT

- Easy UX for both biz owners and consumers
- Automatic update for new containers
- All working parts are automatically updated thanks to up-to-date OTA technology.

Stainless finish

- STS 304 stainless steel goes well with any surroundings
- Luxurious seamless design
- Non-corrosive and anti-bacterial tech

Model	Size of collector (mm)			Size of inner box (mm)			Rated voltage	Weight	Detergent tank	Comm-unications	Display	Installation
	W	D	H	W	D	H	V	Kg	L			
TGEC-KROD02001W	80	683	1,813	700 (600)	540 (440)	900	AC 220V	250	2.0	Wifi LTE	Capacitive/resistive	Indoor/Outdoor

Consumers

By using THE GREET services, consumers naturally participate in efforts to reduce greenhouse gas emissions while they can receive their deposit back by authenticating their phone number or scanning a QR code.

AI/deep learning-based identification system

- drimm containers can be identified at an accuracy rate of 99.08% within 0.08 seconds.
- Damaged drimm containers or incompatible items can be quickly identified.
- Edge computing technology is deployed to increase performance and cost efficiency.

Foam Shield System helps keep the inside of the container station clean

- FSS prevents bacterial growth inside the station and on the containers
- FSS removes food smells
- No need to wash the containers before returning them.

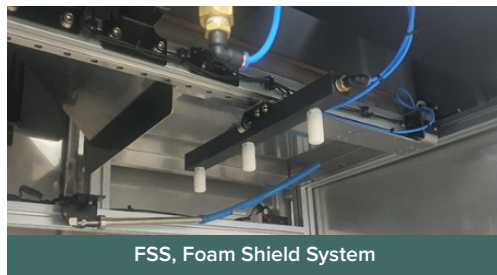

Sale	Rental program (48-month contract)
Price: 415 USD per unit - Maintenance service offered when using drimm reusable containers - Inner box inside the container station: maintenance support	Wifi model: 115 USD per month plus 115 USD installation fee LTE model: 138 USD per month plus 115 USD installation fee - Maintenance service is offered when leasing the station or using the drimm reusable containers

Technology

IoT and AI technology inside the multi-use container station

IoT System

No need for biz owners to wash containers or to handle the deposit returning process. With sleek design, the station can become an excellent interior item.

FSS, Foam Shield System

Operating part of station's door

FSS uses detergent app for washing fruits or veggies to keep the container station clean

FSS prevents bacterial growth and food smells

Patented technology

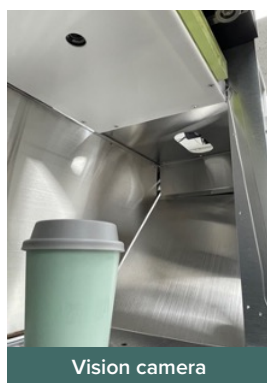

Finger guard system installed

Innovative mechanical design

Patented technology

Self-Cleaning Conveyor System

Technology to spray detergent foam and wipe the inside of the container station. Patented technology

Vision camera

Identification of containers based on AI/ Deep Learning tech

An accuracy rate of 99.08% in identification

The accuracy rate improves thanks to deep learning

Box Shaking Motor

The motor installed inside the station gently rocks the inner box to align the items and increase the maximum storage capacity

Drimm mate for technical support

drimm mate

“ A total solution for delivery, pick-up and maintenance. ”

01 Convenience

- Daily pick-up and maintenance
- THE GREET's trained employees will serve the customers and consumers

02 Swiftness

- THE GREET offers a one-day delivery service for multi-use containers.
- Quick customer support service for any unexpected occasions
- Automatic alerts when the storage rate exceeds 80%

03 Cleanness

- Easy to manage the station, including the outer case and inner box
- drimm mates are always in uniform to earn customer trust

Technical Support

“ Remote maintenance service based on IoT ”

01 Easy-to-use

- Maintenance service via IoT technology
- Business owners have flexibility in how they can change the deposit rules

02 Fast

- The web-based operations system enables THE GREET to detect the signs of malfunctions in advance.
- Onsite surveillance cameras help respond to emergent situations quickly.

drimm

Multi-use containers that
deliver value for all

Product List

Feature

“
Disposables are littering the
earth every day.
”

“
THE GREET has been trying
to find solutions to address
disposable waste issues.
”

***With drimm, you can save the Earth
without sacrificing convenience,
all while reducing disposables.***

“
Various sizes of cups and lids for hot
and cold drinks are available.
”

Containers made of PP

BPA FREE
ECO FRIENDLY
MICROWAVE SAFE
DISHWASHER SAFE

**THE GREET uses
environmentally-friendly materials
that are food-safe for human to use.**

From meals to beverages

Drimm has a dream of removing
disposables from our planet

**With *drimm*, zero disposable waste is
not a far-fetched dream.**
