I SKIN SOLUTION SOS LINE

Intensive emergency care for trouble sensitive skin

The SOS line is developed to allow sensitive and acne-prone skin to use without concerns.

It contains no preservatives, no fragrance and no artificial color, but contains 5~10% high concentration of propolis, which has a unique scent, and the orange aroma oil and lemon aroma oil are used for the fragrance instead of artificial fragrance. So, it can be used safely even for sensitive and damaged skin.

Ingredients **Propolis** It has excellent anti-aging effects by removing active oxygen from the body. It is called 'natural antioxidant'. It is effective in strengthening skin barriers.

Centella asiatica extract As a plant native to Madagascar, it is called "tiger grass" and has a calming effect that tigers rub their bodies to heal wounds.

Aloe vera leaf extract It helps to make your skin soft and flexible. As it contains a lot of moisture, it helps maintain the moisturizing power of the skin.

Houttuynia cordata extract It is effective for sensitive skin care and soothes skin trouble from external stimuli.

Recommended Those who suffered burning caused by hot UV rays
Those who has irritation caused by cooling/heating
Those who suffered skin trouble
Those who has dry and sensitive or red skin

I Company Introduction
