SHINY PUMPKIN LINE

An immediate amazing radiance on your skin after treatment

The Shining Pumpkin Line contains AHA, BHA and natural pumpkin enzyme components which can exfoliate dead skin cells while providing nutrition and actives ingredients for your healthy and translucent skin. There are also 17 kinds of amino acids, the smallest protein to help regenerate the skin cells.

Ingredients Pumpkin : Rich in various vitamins especially vitamin A, minerals, and omega fatty acids.
These improve the health of the skin and are effective in enhancing elasticity of dry skin.

17 types of amino acids : Amino acids are the basic components of the skin, and the product contains the same or similar proportions of amino acids as in the epidermis. Accordingly, it is effective for skin regeneration as well as moisturization by effectively supplying the proteins required by skin.

Recommended Those who has reduced skin regenerating due to aging.
Those who is sensitive to Irritated skin due to Dryness
Those who has reduced skin elasticity due to swelling and edema.
Those who has dull skin due to accumulated thick dead skin cells and waste.
