| Bodyola Y

Light and Quiet Body Massage Gun

Low noise design
Designed for low noise equipment using a BLDC motor, with operating noise at about 50 dB (20% quieter than other products).

Light weight
Approximately 30% lighter compared to other products through carbon material molding.

Simple one-button operation
Simple operation with one button up to "Operation-1, Step-2, Tier-3, Tier-Stop"

Emotional Design
Ergonomic angle (Y shape) reduces wrist strain when used because the center of gravity is in the center of the body.

Premium leather case available
Trendy ivory leather case provided for storage without removing the battery.
